

HTCS730

Let's get down to business

Combining functionality and power within a compact, stylish design, the HTC S730 keeps you in touch while on the move. Much more than just a phone, its powerful features make light work of email, text and the web.

With the complete suite of Microsoft® Office Mobile applications you can review and edit documents on the go. This compact phone slides to reveal a full QWERTY keyboard, enabling fast typing and dialling.

Important information is just a glance away with the Live HTC Home™ screen, giving you an instant view of email, calendar, messages, missed calls and more.

With email direct to your phone and super-fast internet access, you can be sure to keep in touch no matter where you are in the world.

Work smart while on the go with the HTC S730
